

# etzMAX Grinder Series

## FEATURES all versions

- ❖ Easy to adjust and clean
- ❖ RRB mechanism to ensure for minimum retention (less than 1g) and a direct, fluffy output
- ❖ Energy-efficiency due to optimal synergy between motor & burr geometry
- ❖ Modular System
- ❖ Single Dosing or Hopper use
- ❖ Convertible to Filter (Filterkit)

## Specific features based on version

- ❖ LT: GbT
- ❖ LM / P / X: GbW with 500g Calibration Weight, Solid Front Panel with red START-button
- ❖ P / X: Integrated Motor Cooling
- ❖ X: Unlimited life-span Motor, Illuminated Grinding Process, Replaceable Ring burr, Bigger Housing for easy access from the rear (not yet available)

Technical FEATURES	etzMAX LT	etzMAX LM	etzMAX P
Capacity Hopper	200g		1000g
Colors	Black, Silver, White	Black, Silver, White	Black, Silver, White
Dimensions	275x176x425mm		275x176x535mm
Adjustment	Micro (10x0.01mm), Macro (15x0.1mm)		
Speed	3.0-3.4g/sec (AP-cone, Espresso)		3.0-7.0/sec (dependent on setting & cone AP/Filter)
Motor (US/CAN)	120V AC 240W 50/60Hz 2.4Amp		120V AC 240W 50/60Hz 2.4Amp
Motor (International)	220V AC 185W 50/60Hz 1.2Amp		220V AC 185W 50/60Hz 1.2Amp
Life-Span etzJET	Around 700kg		Around 900-1000kg
Weight Net/Gross	6.8kg/10.1kg	8.85/11.45kg	9.05/12.30kg
Packing	59x39x29cm		
Operating Cycle	1-2 shots/min (dependent on setting/cone)		2-3 shots à 18g/min (dependent on setting/cone)
Material	Aluminum / Fibreglass reinforced plastic	Aluminum / Zinc Diecast	
Burrs	32mm Hardened Machining Steel		32mm Hardened High-Quality Tool Steel
